Shalom, dear Ehud! Concerning the communication with the BDK Aliya it turns out that their insistence on the detailed report for 2015 is based on their interpretation of the terms of the signed contract. Since it was signed on behalf of your company it requires more information about the performance than if the contract had been signed by you as an individual. We talked with Aliya and now she is ready to accept the report in its present format, only it has to be resent anew since Aliya can not open the current electronic version sent by Nili last time. Once it is done they are going to transfer the money for December. The ICC activities go on and for the 2016 it is planned to have 4 meetings, the first to take place in February. You will get details later on. Cheers, best to Nili.

> Concerning your New Year congratulations to Dr Dariga and the PM, I find them very thoughtful. I especially liked the way You mentioned about the God helping from the heavens and us helping on the earth.
> Cheers, best regards to Nili. P.S I'm working on the stuff about the communication with the BDK, expect something positive after the holidays.
